Dear Mr. Kuehler:

Pursuant to our telephone conversation, let me offer the following information in hopes to dispel some of the mystic surrounding oil additives.

We have had an opportunity to look at a couple of brands, yours included, and for the most part have found nothing that would be detrimental to the operation of our machinery. Under the circumstances the addition of oil additives will have no impact on the warranty status of the equipment.

If there is anything else that I can do, please let me know.

Best Regards,
