MR WILLIAM F PROBST

Dear Mr. Probst,

Thank you very much for the opportunity to evaluate the product FRIGI-TECH. I'm positive surprise over the great performance and like to share my findings and results with you.

The FRIGI-TECH oil was injected into 2 Goodman A/C 10 SEERS units approximated 6 years old.

Both units had been charged prior under "SUPERHEAD" conditions (72DegreeF room temperature) and Delta T measurement of 20.1 Degree F have been confirmed. After injecting the FRIGI-TECH oil, the Delta T increased to 26.9 Degree F and positively impacted the ratio of run-time/off-time as well.
